

## AMX Technical Specification - Mobile

This outlines the **minimum** technical specification to support an installation of AMX Mobile. AMX can be installed on multiple mobile platforms, however each device will require an AMX mobile activation annual licence.

### **Windows Based Mobile Device:**

- Windows based device (Windows XP, 7,8<sup>i</sup> Pro)
- Minimum 100 MB free disk space on the target drive.
- .NET Framework 2.0 or later

### **Android Based Mobile Device:**

- Any Android Device version 4.0 (Ice cream sandwich) or higher

If you require any additional information, please contact the IAM team on +44 (0)117 9596528

---

<sup>i</sup> Please note that the system does not operate correctly on a Windows 8 RT version.
